

There are many different types of concrete. Which one is right for you?

Type	Composition	Strength (PSI)	Purpose	Cost (\$/cu. yd.)
Normal Strength	Cement, water, sand, gravel	~3,500	Sidewalks, driveways, meant for light loads	~\$135
Reinforced	Normal strength concrete + rebar/mesh	~4,500	Load-bearing structures, bridges, high-rise buildings	~\$175
Lightweight	Pumice, shale, clay	~2,500	Roof decks, insulating walls	~\$160
Precast	Stone, gravel, sand	~5,500	Wall panels, pipes, beams, meant for rapid deployment	~\$250
Pervious	Stone, gravel, larger coarse aggregates	~2,000	Sidewalks, parking lots, meant for water drainage	~\$165
